

HAZARDOUS MATERIAL

Business Collection & Drop-Off Services

Every day we help businesses keep hazardous materials out of the landfill by encouraging safe and smart disposal of hazardous materials. It's easy to participate requiring only a few short steps prior to your first visit.

Registration

Businesses must complete a short registration/certification form. This form will certify the participant is a Very Small Quantity Generator (VSQG) and register the business with the Landfill of North Iowa.

LNI Staff will review the completed form and contact the business to set up a time and date to deliver hazardous materials to our facility.

Shipping Papers

Businesses must complete the shipping paper, including the name of the chemicals, if known, the quantity of the material and the number of containers. Additionally, this form must include an emergency contact person with a phone number, signatures of the business representative and driver.

Drop-Off Appointments

VSQG participants must make an appointment for hazardous waste materials to be dropped off at the landfill. Appointments can be made Monday-Friday between 8:00am – 4:00pm.

Billing

Payments may be made at the time of delivery, or an invoice can be mailed once the inventory is completed. Payments in the form of cash, credit card, or business check will be accepted.
