Think there are no free rides?

If the destination is the Landfill of North Iowa's Education Center, it could be free.

If your class signs up for a fieldtrip to the Landfill of North Iowa, your transportation costs could be paid for by the Landfill!

The Landfill of North Iowa understands the financial restraints that many schools face today. The Landfill of North Iowa also understands how important it is to expand the educational opportunities of area students. The **Landfill of North Iowa Transportation Assistance Reimbursement Program (TARP)** is dedicated to providing

funds to any class Pre-K through 12 in the landfill's service area for the purpose of bringing that class to the Landfill for a tour of the facility and Education center.

The Landfill of North Iowa facility and the Education Center have proven to be valuable learning tools for students of all ages. Understanding the importance of environmental education, we conduct tours of the landfill facility and Education Center. To ease the financial burden of bussing students to the Landfill of North Iowa, we have developed a plan to use a percentage of the landfill's education monies to pay for each class's transportation costs, if requested.

It is easy to qualify.

Students, Pre-K through 12, in Cerro Gordo or Franklin County, or from the communities of Klemme, Garner, Forest City, Joice, Hanlontown, Northwood, Kensett, Manly, Grafton or Nora Springs, qualify for this program regardless of school district.

After the fieldtrip, all we ask is for an invoice for your class's transportation costs to and from the Landfill. Invoices will be paid out during the next billing cycle.

We hope that your class will have an opportunity to take advantage of this program soon. Just call Mitzi Brunsvold, Education Coordinator, to set up a fieldtrip date. She can also answer any questions you may have regarding the Landfill of North Iowa Transportation Assistance Reimbursement Program. Call toll-free,
